In reply to your written request registered under the above-mentioned number, we let you know that our institution does not complete genealogical or historical researches at request, but it keeps birth, marriage and death church records of the **Jewish Communities** from the towns and villages situated in nowadays Timiș County.

We also let you know that the above-mentioned records are not yet digitized (the process of digitizing and loading them on the platform <https://descopera.arhivelenationale.ro> is in progress and we hope to accomplish it in the following years) but are available for research, according to the **Law of the National Archives of Romania no. 16/1996 republished**, till the year **1925**, free of charge, at our research room from **Timișoara, str. Andrei Mocioni no. 8, Monday – Thursday, 8.30 – 15.00** (for unpredicted changes of program of our research room, we kindly ask you to check our Facebook page, before planning a trip to Romania).

In order to get access at the research room you need to show a valid ID/passport and to fill in some forms.

A tax of **7 lei/day** is to be paid for taking pictures of the identified records, with your own camera.
